INSTALLATION TRASH COMPACTORS • CARDBOARD BALERS • LOADING DOCK EQUIPMENT
• SERVICE • RENT • LEASE • NEW • USED

Welcome to Clearwater Equipment! Southern Idaho's leader in recycling and solid waste machinery service! Let us help you with all of your refuse and recycling needs!

We specialize in installation and regional support to all manufacturers and outsource companies of trash compactors, cardboard balers, dock lifts, and levelers. We have been the manufacturers' choice since 1989 and to the national retail chain stores that use them. Just ask Marathon Equipment, PTR Baler Compactor Company, JV Manufacturing Inc. ACES or any others on our Reference List!

We provide low cost installation to Southern Idaho and in hard to reach areas of Wyoming, Oregon, Washington and Nevada if needed. Our low overhead and willingness to travel allows us to beat our competition.

Since 1996 Clearwater Equipment has provided 24 hour factory trained service, 7 days a week to southern Idaho. Our Service Department is available 24 hours a day to assist you on preventive maintenance and safety checks as well as any other service needs after the installation. We stock factory replacement parts to keep your machines running!

Clearwater Equipment is fully insured to meet or exceed your company's needs! Fax us your insurance requirements for a certificate today!

We encourage you to check our references for both installation and service. For more information please call us at (208)484-0883. Also check out our latest install pictures plus our used equipment inventory at www.clearwaterequip.com.

Thank You,

Jim West

Attention EB Staff

Hello,

My name is Jim West. I own and operate a small business that caters to manufacturers of trash compactors, cardboard balers and dock levelers and the businesses that use them.

I have been installing and repairing these machines for the companies listed on my reference sheet in Idaho since November of 1995 and in California since 1989 before moving to Idaho.

I still hold a C-61/D21 California contractor's license #706555 that is currently inactive since living in Idaho. I am liability insured for up to 2 million dollars as required by my customers.

The machines I work on are UL listed and ANSI Compliant. I install and repair as per manufacturer's specs using OEM parts or equivalent. I maintain safe operation and troubleshoot hydraulic and motor control components on the machines only and do not go beyond the electrical disconnect or breaker to safely disable the power using lockout, tagout procedures. The skills involved require a unique blend of motor control, hydraulic, welding and fabricating all out in the field similar to that of a millrite.

I am contacting you for your consideration of a specialty license for my unique industry in an effort to comply with state law. My industry is often missed since it is very specific in nature and should not require an electrical journeyman's license for compliance. If possible I would like to be added to the agenda of your board meeting May 15th, 2008. I can be reached during that meeting for a conference call on that day since I am in Boise and would be difficult for me to attend.

Thank You!

Jim West

RE: Clearwater Equipment

The purpose of this letter is to verify the longstanding partnership between PTR Baler and Compactor Company, and Mr. James West of the Clearwater Equipment Company located in Eagle, Idaho.

Our company has been in business since 1907, and manufactures industrial grade recycling equipment including self-contained and stationary trash compactors as well as vertical balers for recycling waste. All of our products are UL listed and adhere to ANSI regulations ensuring safe, efficient and durable performance,

Mr. West has been provided exemplary service and installations on our equipment since 1993, performing quality work on *all* functional areas of our machines including replacement and repair of high voltage 3 phase motors, all lower voltage control circuitry, OEM parts, all hydraulic components, structural steel components, and field fabricating related feed chutes, doghouses, and guide islands.

Jim has consistently demonstrated sound logic and safe working practices when diagnosing, dismantling, and repairing the electrical functions on our machinery. He has worked on equipment at most of our larger customers including The Home Depot, Target, Costco Wholesale, JC Penney, Dollar Tree, Toys R Us, Staples, and many, many more.

If there are any questions or concerns regarding this information, please feel free to contact my office directly at 215-537-2253.

Sincerely,

A handwritten signature in black ink that reads "Bob Petrik".

MAR 27 2008

Al Caine, Licensing Program Supervisor
Division of Building Safety
1090 East Watertower Street
Meridian, ID 83642

Dear Mr. Caine:

Please consider the following proposed verbiage for the change to Idaho Administrative Code IDAPA 07.07.04 (02 Sign Electrical).

Idaho Administrative Code IDAPA 07.07.04 (02 Sign Electrical)
Proposed Draft Revision 3

02. Sign Electrical. Any person qualifying for and having in his possession a current sign electrical license may install, maintain, repair, and replace equipment, controls, outline lighting, skeleton tubing, and wiring on the secondary side of sign disconnecting means; providing the disconnecting means is located on the sign or within sight there from. He may also maintain, repair, and replace equipment, controls, and wiring within pole mounted luminaries used for parking lot lighting. When the disconnect is out of sight, it must be capable of being locked and tagged out; in the open position. This person may not install, maintain or repair branch circuit conductors. He shall be employed by a licensed sign electrical contractor whose installations shall be limited to this category. The holder of such specialty license may not countersign a contractor's license application as supervising journeyman except for work within his specialty.

Sincerely,

Greg Stuart
President

Dear Mr. Caine,

Please accept this letter as my support for the rewording language of the Idaho administrative code IDAPA 07.07.04 (02 Sign Electrical) in favor of licensed electrical sign contractors to repair parking lot lights.

I'm Sorry I can not make the meeting in Pocatello on May 15th as I have made other arrangements for that day.

Thank you

Report from Professional Technical Education

As the technical colleges finish this school year, they will be working together on reviewing what went well, what needs further attention and modification. This will allow time to make needed changes to the curriculum to improve the students learning.

Please find attached to this report a draft electrical apprentice placement procedure. This has been reviewed and approved by the technical colleges. Al Caine has provided input from the Division of Building Safety. It will be process used by the technical colleges for advanced placement this fall.

Respectfully submitted

Burton Waite
Short-Term Training Program manager
Idaho Division of Professional-Technical Education

ELECTRICAL APPRENTICE PLACEMENT PROCEDURES

*Idaho Division of Building Safety,
Electrical Bureau*

*Idaho State Division of Professional-Technical Education/Idaho Technical
College System*

JANUARY 2008 DRAFT

Submitted by

IDAHO STATE DIVISION OF PROFESSIONAL-TECHNICAL EDUCATION

ELECTRICAL APPRENTICE PLACEMENT PROCEDURES

In response to State of Idaho electrical laws, rules and regulations (Title 54), The Idaho Division of Professional-Technical Education (PTE) in coordination with the Idaho Division of Building Safety (DBS) are providing the related instruction required in the law.

It is the responsibility of the Idaho Division of Building Safety to:

1. Register and license apprentices each year.
2. Determine the number of eligible hours worked for each apprentice. For those new apprentices who register in Idaho with at least 2,000 hours of on-the-job training credit, provide documentation to the apprentice indicating at what level the apprentice is eligible for advanced placement assessments. (2,000 hours = one year on-the-job training.)
3. Document related instruction hours as approved by the Office of Apprenticeship, Employment and training Administration, United States Department of labor in Idaho and recognized apprenticeship training in other states.
4. Write the placement assessment for each year of related instruction.
5. Provide student with letter of documentation and directions to contact the appropriate school for assessment.

It is the responsibility of the Idaho Division of Professional-Technical Education through the technical college system to:

1. Establish program advisory committees at each technical college to be responsible for the placement of apprentices in special circumstances:
 - Administer the test provided by the Division of Building Safety (DBS) for advanced placement of those approved for testing by the (DBS).
 - Placement may not exceed the level of on-the-job training. *
2. Provide results of placement testing to (DBS)
3. Provide (DBS) and each student apprentice with documentation of hours of related instruction completed at the end of each training year.

*Students with documented non-apprenticeship related training such as a related degree, may be placed further along in the schooling than the level of on-the-job training.

RECOMMENDED ELECTRICAL APPRENTICESHIP PROGRAM PLACEMENT INSTRUCTIONS

Once registered with the Electrical Division of (DBS), the apprentice will be provided a document that indicates the level to which the apprentice may be assessed for placement in an apprentice training program. The state may give an apprentice credit for previous on-the-job hours which may entitle the apprentice to take a placement exam through the institution. The results of the assessment(s) may be used to place the apprentice in the appropriate classroom training. The apprentice must begin with the assessment for year one (1) and pass that assessment and any succeeding assessments up to the level approved by (DBS).

Example: An individual has been working in California as an apprentice for two years. In California, there is no related instruction to accompany the on-the-job training. The individual registers with the Idaho Division of Building Safety who documents his work hours. (DBS) provides the apprentice with a document that indicates the level to which the apprentice may be assessed for placement and instructs the apprentice to contact the appropriate school for a placement test.

The apprentice then calls the institution and makes an appointment for the test. A charge for the placement test is determined by the institution. If the individual passes both Year one (1) and year two (2) assessments, he/she will be placed in the third year of the classroom training and then must complete both year three (3) and year four (4). If the individual passes the year one (1) assessment only, he/she will be placed in year two (2) and must complete all successive years of training. If the individual does not pass the year (1) assessment he/she must begin the schooling in year (1) and complete all succeeding years of training.

Retake/Time Limit Policies

No retakes will be allowed. The test must be taken within 6 months of approval by the State. Each test will be a maximum of 3 hours for each year.

**DIVISION OF BUILDING SAFETY
ELECTRICAL/HVAC/PLUMBING FEE SCHEDULE**

<u>ELECTRICAL TEMPORARY CONSTRUCTION SERVICES ONLY:</u> 200 amp or less, one location: \$65 basic fee
<u>NEW RESIDENTIAL - SINGLE FAMILY DWELLING:</u> up to 1,500 sqft \$130* □ 1,501 to 2,500 sqft \$195* □ 2,501 to 3,500 sqft \$260* □ 3,501 to 4,500 sqft \$325* Over 4,500 sqft Use OTHER INSTALLATIONS * Fee includes a maximum of 2 inspections for up to 1,500 sqft, 3 inspections for 1,501 to 2,500 sqft, 4 inspections for 2,501 to 3,500 and 5 inspections for 3,501 to 4,500. Additional inspections charged at rate of \$65 per hour. <i>* Fee is for each installation type (i.e. Electrical, Plumbing and HVAC)</i>
<u>NEW RESIDENTIAL - MULTI-FAMILY DWELLING</u> Duplex Apt: \$260 □ Three or more multi-family units \$130 per building plus \$65 per unit - #bldgs_____ #units_____
<u>EXISTING RESIDENTIAL:</u> \$65 basic fee plus \$10 for each additional branch circuit, or plumbing fixture, or piece of HVAC equipment up to the maximum of the corresponding square footage of the residential building. <u>HVAC Only:</u> Fireplace installation - \$130 (this is for two inspections) Hydronic Flooring - \$65 basic fee plus \$10 for each additional manifold (zone) <i>* Fee is for each installation type (i.e. Electrical, Plumbing and HVAC)</i>
<u>MODULAR, MANUFACTURED or MOBILE HOMES:</u> Electrical - \$65 basic fee for each electrical connection plus \$10 for each additional circuit. Plumbing - \$65 basic fee for sewer and water stubs connection. HVAC - \$65 basic fee plus \$10 for each duct, fireplace, piece of equipment, or vent up to maximum square footage.
<u>OTHER INSTALLATIONS/COMMERCIAL/INDUSTRIALS:</u> Work not specifically covered by any of the other fee schedules. Fee to be based on the cost of all labor, materials and equipment installed: Cost of Labor & Materials \$_____ Cost up to \$10,000: Multiply by 2% and add \$60 Cost between \$10,001 - \$100,000: Minus \$10,000 multiply by 1% and add \$260 Cost over \$100,001: Minus \$100,000 multiply by .5% and add \$1,160 <i>*Please see example below</i> <i>*Fee is for each installation type (i.e. Electrical, Plumbing and HVAC)</i>
<u>Electrical Only Other:</u> For all owner-supplied, factory assembled equipment to be installed, the inspection will be based on .5% of total cost of the equipment OR an hourly rate of \$130 for the first hour of each inspection and \$65 for each additional hour. (Please call the office for assistance with calculating this fee)
<u>ELECTRICAL CONTRACTORS ONLY - SMALL WORKS:</u> \$10 basic fee for work not exceeding \$200 in cost and not involving a change in service connections.
<u>ELECTRICAL RESIDENTIAL SPAS - HOT TUBS - HYDRO MASSAGE TUBS - SWIMMING POOLS</u> \$65 basic fee plus \$65 grounding grid where applicable. Each additional trip will be charged the \$65 basic fee.
<u>RESIDENTIAL ELECTRIC CENTRAL SYSTEMS HEATING and/or COOLING</u> When NOT part of a new residential permit, or HVAC permit, and no additional wiring: \$65
<u>RESIDENTIAL ELECTRIC PUMPS (DOMESTIC WATER, IRRIGATION, SEWAGE)</u> Each Pump Up to 25 HP: \$65 26 to 200 HP: \$95 Over 200 HP \$130
<u>ELECTRICALLY DRIVEN IRRIGATION MACHINE:</u> \$65 for center pivot plus \$10 per tower or drive motor. #Pivot_____ #Tower_____
<u>ELECTRIC SIGNS AND OUTLINE LIGHTING:</u> Signs - \$65 for each sign. Outline Lighting - \$65 per occupancy.
<u>ELECTRICAL TEMPORARY AMUSEMENT - INDUSTRY:</u> \$65 basic fee plus \$10 for each ride, concession, or generator.
<u>HVAC GAS LINE:</u> \$65 basic fee
<u>PLUMBING RESIDENTIAL SEWER AND WATER:</u> \$38 each or \$65 for the combination if inspected at the same time.
<u>PLUMBING LAWN SPRINKLERS - WATER HEATERS - WATER CONDITIONERS</u> \$65 basic fee per item
<u>PLUMBING MULTIPURPOSE RESIDENTIAL FIRE SPRINKLER AND DOMESTIC WATER SUPPLY SYSTEM</u> \$65 basic fee or \$4 per fire sprinkler head, whichever is greater.
<u>REQUESTED INSPECTIONS - REINSPECTION - TECHNICAL SERVICE:</u> \$65 minimum plus \$65 per hour or portion thereof in excess of one hour including travel time to and from job location. <i>* Fee is for each installation type (i.e. Electrical, Plumbing and HVAC)</i>
<u>PLAN CHECK FEE:</u> \$65 per hour minimum plus \$65 per hour or portion thereof in excess of one hour.

EXAMPLE OTHER INSTALLATIONS:

Cost of Labor & Materials \$1,800

\$1,800 x .02 = \$36.00 + \$60.00 = **\$96.00 total**

Cost up to \$10,000: Multiply by 2% and add \$60

Cost of Labor & Materials \$14,200

\$14,200 - \$10,000 = \$4,200 x .01 = \$42.00 + \$260.00 = **\$302.00 total**

Cost between \$10,001 - \$100,000: Minus \$10,000 multiply by 1% & add \$260

Cost of Labor & Materials \$120,500

\$120,500 - \$100,000 = \$20,500 x .005 = \$102.50 + \$1,160.00 = **\$1,262.50 total**

Cost over \$100,001: Minus \$100,000 multiply by .5% & add \$1,160

IDAPA 07

Chapter 07
Rules Governing Continuing Education Requirements
Division of Building Safety

000. LEGAL AUTHORITY. The Idaho Electrical Board is authorized under Sections 54-1003 and 54-1006(5), Idaho Code, to adopt rules concerning the continuing education requirements for journeyman and master journeyman licensing. (2-26-93)

001. TITLE AND SCOPE. These rules shall be cited as IDAPA 07, Title 01, Chapter 07, "Rules Governing Continuing Education Requirements, Division of Building Safety." These rules include criteria for requirements for continuing education for electrical licensees. (2-26-93)

002. WRITTEN INTERPRETATIONS. This agency has no written interpretations of this chapter. (2-26-93)

003. ADMINISTRATIVE APPEALS. The Attorney General's Idaho Rules of Administrative Procedure govern license revocation/suspension proceedings. (2-26-93)

004. -- 010. (RESERVED).

011. CONTINUING EDUCATION REQUIREMENTS. Journeymen and Master Electricians must complete at least sixteen (16) hours of continuing education instruction in every three (3) year period between updates of the National Electrical Code. Instruction will consist of eight (8) hours of code update covering changes included in the latest edition of the National Electrical Code, and eight (8) hours of electrical industry related instruction covering subjects other than code update. The Electrical Board will establish criteria for approval of instruction and instructors, and courses and instructors will be approved by the Bureau. Proof of completion of these continuing education requirements must be submitted to the Bureau prior to or with the application for license renewal by any such licensee in order to renew a journeyman or master electrician license for the code change year. (4-5-00)

012. -- 999. (RESERVED).

**IDAPA 07
